## Vaccine supply for non routine programmes

### HEPATITIS A VACCINE

#### Adult

- **GSK:** Supplies of Havrix® prefilled syringe (PFS) singles, PFS packs of 10 and vials in singles are available. Please note, there may not be sufficient stock in each presentation to accommodate demand, therefore you may not be able to access supply of some presentations.
- **Sanofi Pasteur:** Avaxim® is currently out of stock. Limited supplies are expected in May 2018.
- **MSD:** VAQTA® Adult is currently unavailable and there will be intermittent supplies during 2018.

#### Paediatric

- **GSK:** Havrix® Paediatric singles and packs of 10 are currently available.
- **MSD:** VAQTA Paediatric is currently available with supplies expected throughout 2018.

### HEPATITIS B VACCINE

All Hepatitis B monovalent and combination hepatitis A/B vaccines are currently under supply management. Please see issue 67 (March 2018) of Scottish Vaccine Update available [here](#) for more information on the plan for phased re-introduction of hepatitis B vaccine for lower priority groups.

#### Adult

- **GSK:** Engerix B® PFS singles are available.
- **GSK:** Engerix B® PFS packs of 10 are available.
- **GSK:** Very limited supplies of Engerix B® vials are available.
- **GSK:** Fendrix® is available.
- **MSD:** Limited supplies of HBVAXPRO® 10µg are available. Supplies are expected to be restricted throughout 2018.
- **MSD:** Limited supplies of HBVAXPRO® 40µg are available. Supplies are expected to be restricted throughout 2018.

## Paediatric

- **GSK:** Engerix B® Paediatric singles are available.
- **MSD:** Limited supplies of HBVAXPRO® 5µg are available. Supplies are expected to be restricted throughout 2018.

## COMBINED HEPATITIS A & B VACCINE

- **GSK:** Twinrix® Adult and Paediatric presentations are available.
- **GSK:** Ambirix® is available.

## COMBINED HEPATITIS A & TYPHOID VACCINE

- **GSK:** GSK is discontinuing Hepatyrix® vaccine that has been under constrained supply for several years due to challenges associated with its manufacturing.
- **Sanofi Pasteur:** Viatim® is currently unavailable. It is likely to be back in stock in May 2018.

## TYPHOID VACCINE:

- **GSK:** GSK is discontinuing Typherix® vaccine that has been under constrained supply for several years due to challenges associated with its manufacturing.
- **Sanofi Pasteur:** Typhim® is available to order without restrictions.
- **PaxVax:** Vivotif® is available.

## RABIES VACCINE

- **GSK:** limited supplies of Rabipur® are available due to increased demand. Supply is being prioritised to hospitals and GPs for use in notified post-exposure cases only.
- **Sanofi Pasteur:** Limited supplies of Rabies BP are available. It is likely that there will be order restrictions in place.

## PPV (Pneumococcal Polysaccharide Vaccine)

- **MSD:** Stock is currently available and additional replenishment is planned for April and June 2018

## VARICELLA ZOSTER VACCINE

- **GSK:** Varilrix® is currently available
- **MSD:** VARIVAX® is currently available
- **MSD:** ZOSTAVAX® is currently available

## DIPHTHERIA, TETANUS AND POLIOMYELITIS (inactivated) VACCINE

- **Sanofi Pasteur:** Limited supplies of Revaxis® are available. There are likely to be order restrictions in place for travellers.

## MMR

- **MSD:** No MMR is available for the private market and no date for replenishment is available.
- There is no impact on the Scottish Immunisation Programme.

## HUMAN PAPILLOMAVIRUS VACCINE

- **MSD:** Stocks of Gardasil® are available for private market sales and for the Scottish Immunisation Programme.
- **MSD:** Limited supplies of Gardasil-9 are currently available for the private market but supplies are expected to be constrained until July 2018.

## MenACWY VACCINE

- **GSK:** Menveo®, is heavily constrained and supply is anticipated to improve in late 2018.
- **Pfizer:** Nimenrix® is currently available for private sales. There is no impact on the Scottish Immunisation Programme
