

**38%**  
**DECREASE**  
 IN ANNUAL NUMBER  
 OF **TB**  
 CASES SINCE **2010**

**Rate of TB\***  
**females vs**  
**males**  
 in 2016

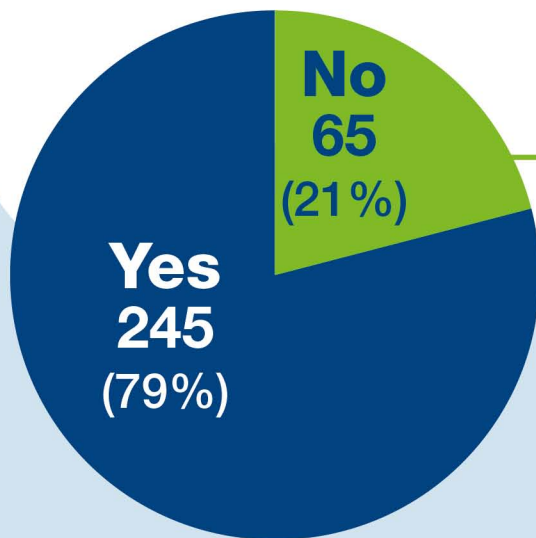

\*per 100,000 population

**Rate of TB\*** **born in UK vs**  
**not born in UK**

\*per 100,000 population

**Did patients complete treatment within one year?**

**Why not?**

Lost to follow up **7** (2.3%)

Treatment stopped **11** (3.5%)

Still on treatment **6** (1.9%)

Not evaluated\*\*  
**20**  
 (6.5%)

Died  
**21**  
 (6.8%)

\*\* Not evaluated includes TB patients for whom no treatment outcome is assigned, cases transferred to another country as well as cases for whom the treatment outcome is unknown.

All data correct at August 2017.

Health Protection Scotland coordinates national surveillance of TB in Scotland.
